| 13                           |                   |     |                  | 13                 |                   |    |
| 14                           |                   |     |                  | 14                 |                   |    |
| 15                           |                   |     |                  | 15                 |                   |    |
| 16                           |                   |     |                  | 16                 |                   |    |
| 17                           |                   |     |                  | 17                 |                   |    |
| 18                           |                   |     |                  | 18                 |                   |    |
| 19                           |                   |     |                  | 19                 |                   |    |
| 20                           |                   |     |                  | 20                 |                   |    |
| 21                           |                   |     |                  | 21                 |                   |    |
| 22                           |                   |     |                  | 22                 |                   |    |
| 23                           |                   |     |                  | 23                 |                   |    |
| 24                           |                   |     |                  | 24                 |                   |    |
| 25                           |                   |     |                  | 25                 |                   |    |
| 26                           |                   |     |                  | 26                 |                   |    |

\* Enter number of sets played if not the usual 4. Enter the actual number of points, not an average. This will automatically be calculated for seeding purposes.

|         |                    |                 |
|---------|--------------------|-----------------|
| Average | Standard Deviation | Number under 16 |
| 18.9091 | 4.3995             | 3               |

### Rules

1. If the Person 1 below has > 2 points more, you go below them.
2. If the Person 2 below has > 4 points more, you go below them.
3. If the Person 3 below has > 6 points more, you go below them.
4. The above is applied using a top down approach.
5. People who miss a week (in **bold**) will have their average used to seed them in the next week unless they have not played for the qualifying period in which case the rule below will apply.
5. If people miss 2 weeks in a row they will be dropped from the seeding table and reinserted when they return.
6. People not seeded who play on the night will be manually seeded by the Seeding Committee.
7. If the top 2 people in the previous week remain in that position for the new week then 2nd & 3rd positions will be swapped. This is to ensure the top 2 get to play each other.

Note: Seeding for the following week takes no account of who has actually signed-up.

### AUTOMATION NOTES:

Macros have been added to automatically sort the seedings and update the main table This will work for any number of players, as long as:

- The first name/points are in cells B5-C5
- There is a blank below last player, and no blank spaces between names/points.
- The names to the left appear EXACTLY as they are in the main table

The newly-sorted list will be placed in cells F5-G5 downwards.

**To run the macros, just click the buttons below**

Dropped from seeding:
