Number under 16
4

Rules

1. If the Person 1 below has > 2 points more, you go below them.
2. If the Person 2 below has > 4 points more, you go below them.
3. If the Person 3 below has > 6 points more, you go below them.
4. The above is applied using a top down approach.
5. People who miss a week (in **bold**) will have their average used to seed them in the next week unless they have not played for the qualifying period in which case the rule below will apply.
5. If people miss 2 weeks in a row they will be dropped from the seeding table and reinserted when they return.
6. People not seeded who play on the night will be manually seeded by the Seeding Committee.
7. If the top 2 people in the previous week remain in that position for the new week then 2nd & 3rd positions will be swapped. This is to ensure the top 2 get to play each other.

Dropped from seeding:
